## “Chromosome Four Contains Genes that Affect Drinking Behaviors in Smokers”

1. As presented by the researchers, why are variations in a region of chromosome four significant?
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

2. This study demonstrates that alcoholism is a complex behavior that draws from both environmental and genetic factors.
- TRUE                  FALSE

## “Adapting to Life in the U.S. Can Increase Alcohol Consumption among Latinas”

3. This study found that:
- a. Latinas who are less acculturated into American society have increased risk of alcohol abuse
  - b. Latinas who are more acculturated into American society have increased risk of alcohol abuse
  - c. Latinas who previously had high levels of alcohol consumption decrease their use with greater acculturation into American society
  - d. None of the above
4. In addition to Latinas, Latino men see a marked change in drinking practices with increasing acculturation to the United States.
- TRUE                  FALSE

5. How do the researchers explain the increase in alcohol use among Latinas with greater acculturation?
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

## “Alcohol-induced Bone Disease”

6. Name four ways heavy alcohol consumption effects bone health.
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
7. The effects of drinking on new bone formation can result in measurable bone loss in just a few years.
- TRUE                  FALSE

## “Hazardous Alcohol Use by Young Adults Goes Far Beyond College Campuses”

8. Contributing factors to the increase in alcohol consumption among young adults include:
- a. Lack of adult roles and responsibilities
  - b. Increased autonomy
  - c. Process of exploration and experimentation which is typical of the age group
  - d. All of the above
9. College-completing women increase their frequencies of heavy episodic drinking more than non-college women, surpassing them by age 24.
- TRUE                  FALSE

10. What is the main obstacle in developing intervention and education programs for non-college adults?
- \_\_\_\_\_
- \_\_\_\_\_
